

7 amazing online code editors

With online IDEs,
you don't need any
fancy setup and you
can easily collaborate
with your team **for free.**

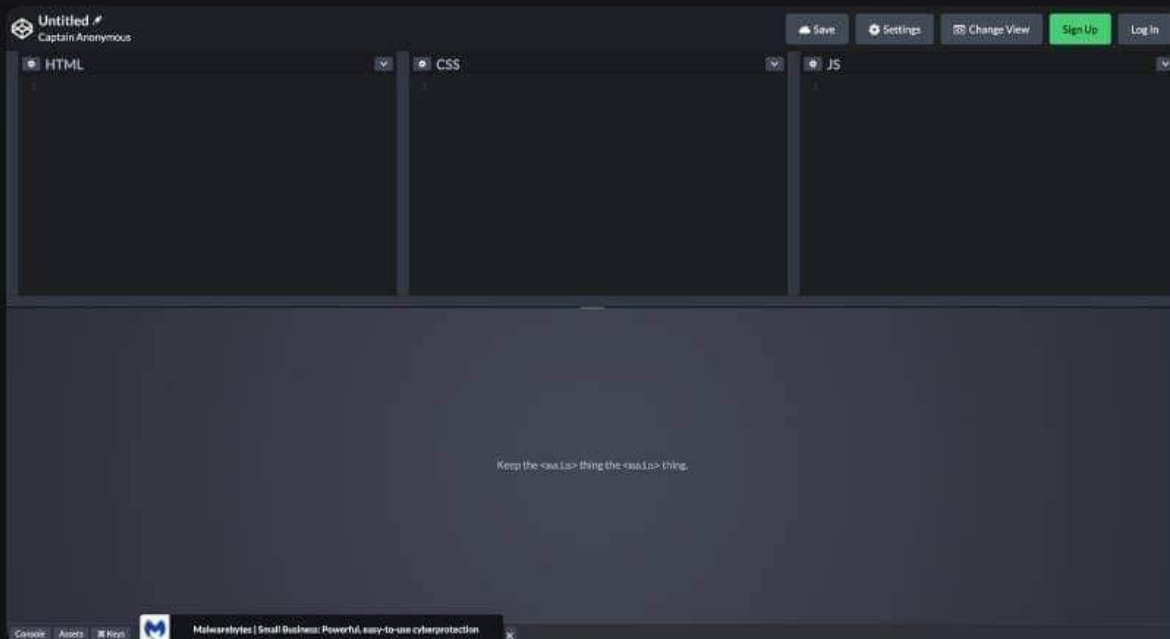

Here are 7 great tools
you can use online!

CodePen

codepen.io

is fast, easy to use, and allows web developers to write and share HTML, CSS, JavaScript code online.

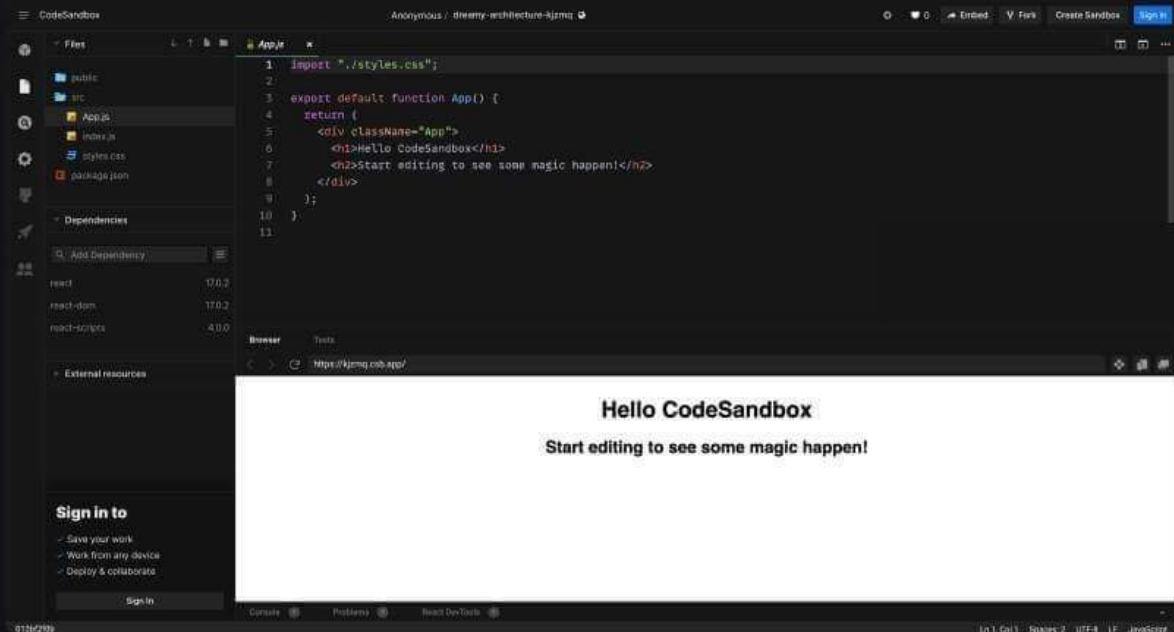

CodeSandbox

codesandbox.io

allows you to quickly create
apps using modern programming
languages and technologies.

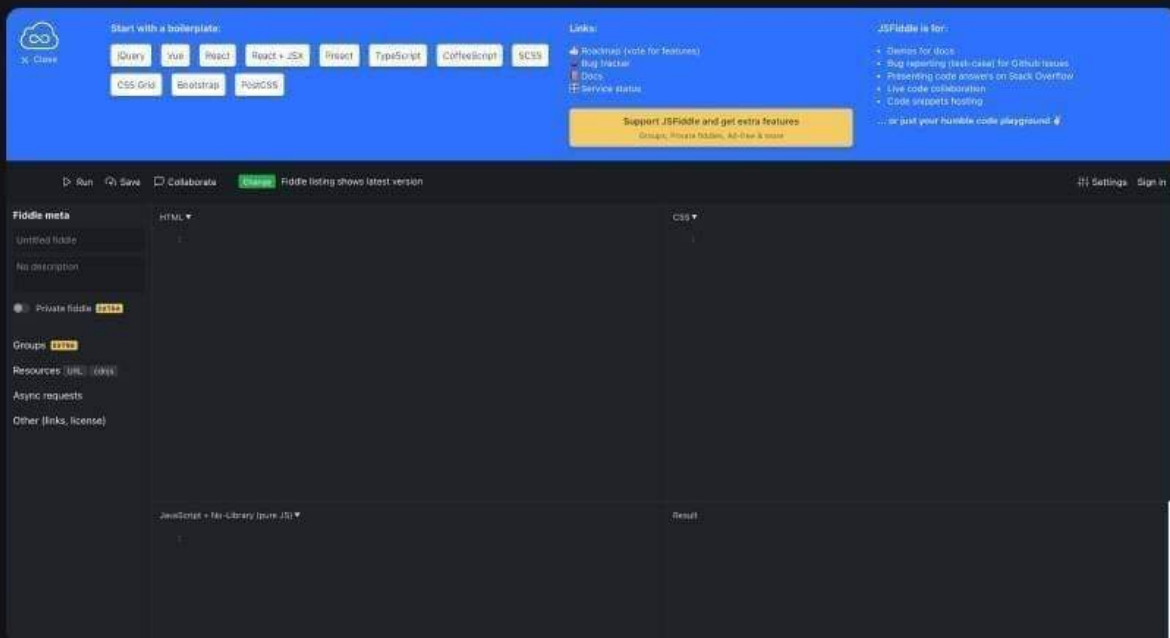

JSFiddle

jsfiddle.net

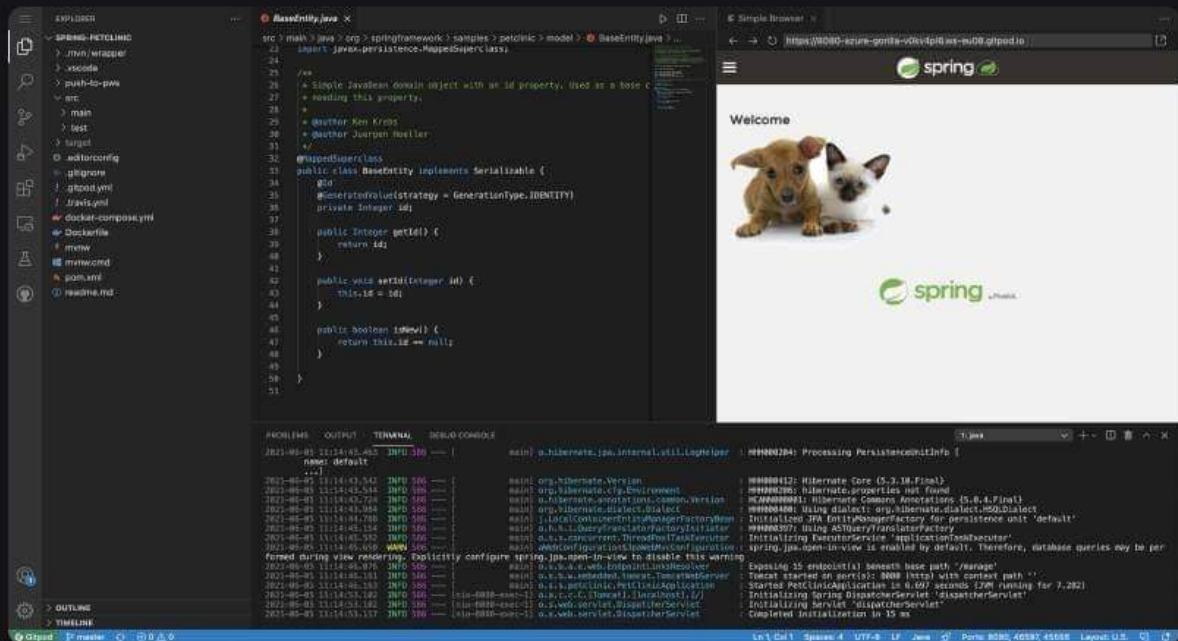

is a very popular choice for devs
that is free and provides tons of
boilerplates to get started.

gitpod.io

allows you to launch ready-to-code
dev environments for your GitHub or
GitLab project with a single click.

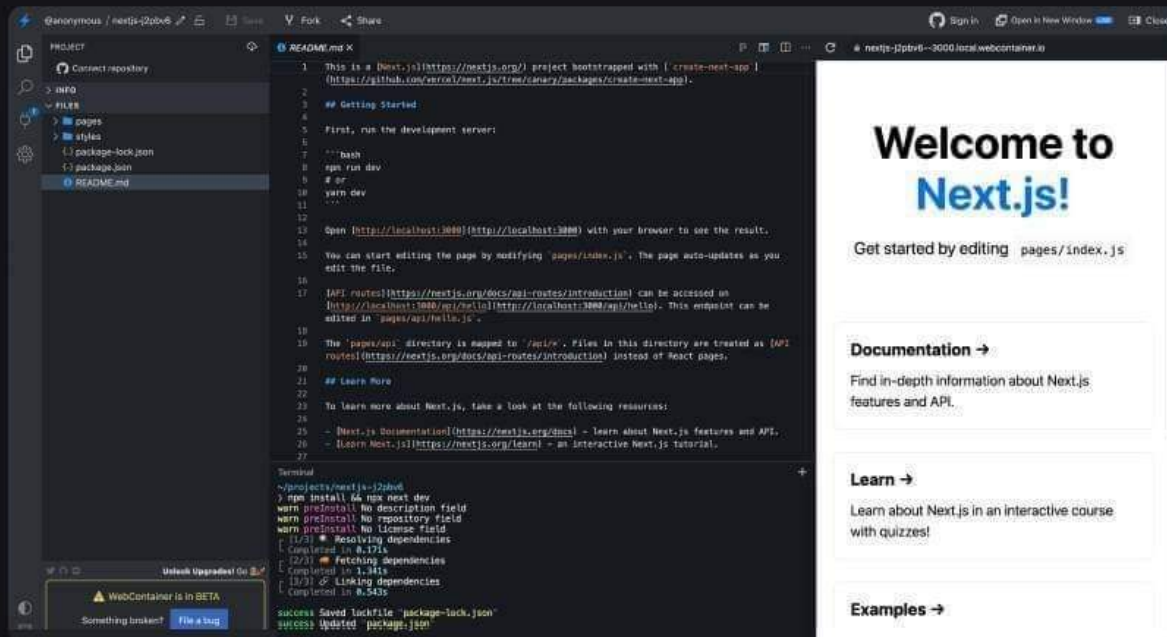

StackBlitz

stackblitz.com

allows you to create, edit and deploy
fullstack apps with faster package
installations and greater security.

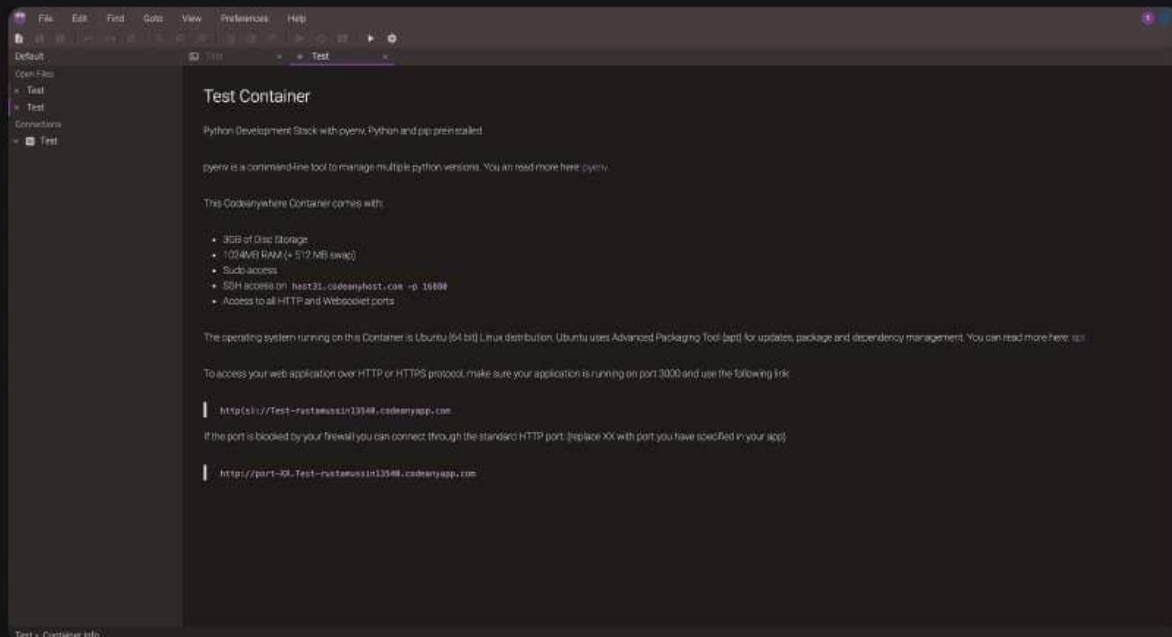

CodeAnywhere

codeanywhere.com

uses prebuilt container images for
70+ coding languages & frameworks
as well as connect to any platform.

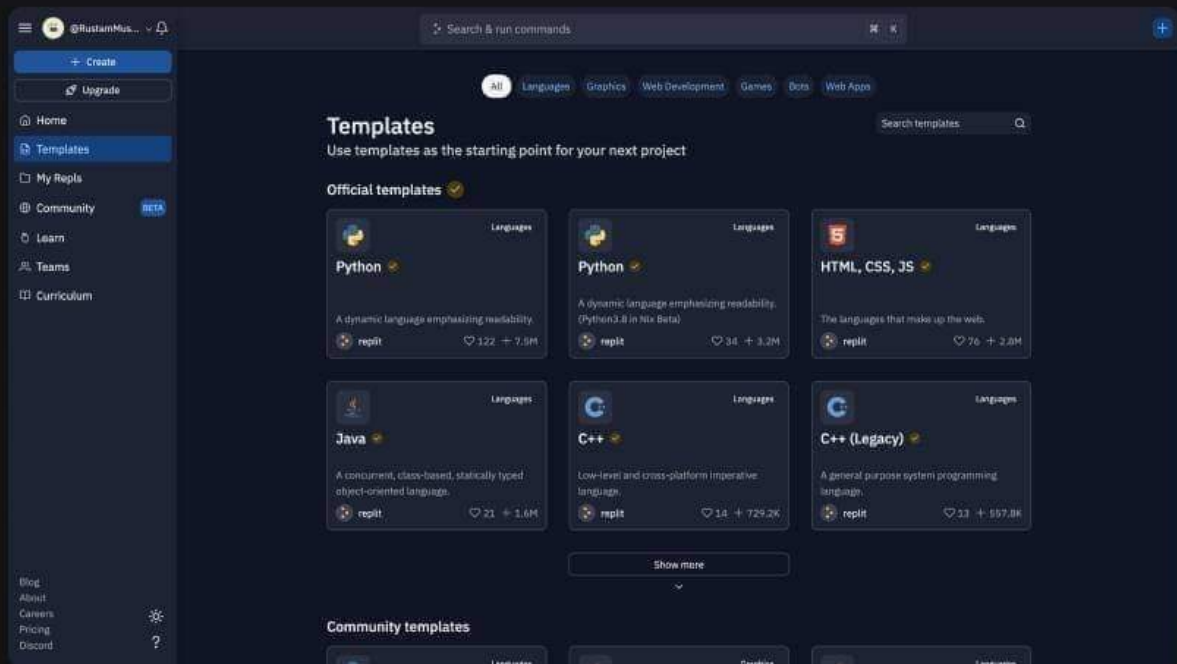

Replit

replit.com

free, collaborative, in-browser IDE
to code in 50+ languages without
spending a second on setup.
